SURPLUS LIST
S. S. BERRY, 745 WEST HIGHLAND AVE.
REDLANDS, CALIFORNIA

JOIN THE AMERICAN IRIS SOCIETY

It is doing a valuable work and you will find its publications most interesting and useful. Dues \$3.00 per year. Address Mr. Arthur H. Scott, Treasurer, Front and Market Streets, Chester, Pa.

FOREWORD

This little catalog constitutes an effort to find outlet for, and especially to secure wider local dissemination of the fast accumulating surplus of one of the largest study collections of Irises on the Pacific Coast. Limited space makes the stock of many varieties listed unduly low, but as the resources of two other large private collections are also available through arrangement with their owners, it is anticipated that we will be able to supply reasonable demand.

As we are constantly acquiring new varieties, and comparing and discarding older ones, the list of varieties available in surplus is constantly changing, and similarly but a certain proportion of the 1000 or more varieties which our combined collections include can be offered at any one time. Single roots, however, of many varieties not yet listed can often be supplied, so in case of specific desiderata unmentioned in this leaflet.

special inquiry is invited.

Attention is called to the material reductions we are able to effect in prices in this 1925 list.

Particular attention is further directed to our list of specialties and novelties on pages 4-7. The new introductions offered are very desirable for California gardens, but their behaviour in colder climes has not as yet been ascertained.

CULTURAL NOTE

The culture of Irises depends mainly upon the particular group or type to which the plants belong. That of the majority of the Pogoniris or bearded group is very simple. Abstention from the use of retentive manure, a fair amount of lime in the soil, and good drainage are the principle points to attend to. The rhizomes should be set in the earth at time of planting with the roots carefully spread and the soil firmed about them, but the top of the rhizome not quite covered. In southern California the most successful Iris growers are those who irrigate their plantations occasionally through the summer, say once a month, like a citrus orchard, following each watering with light cultivation.

Ridging the beds or planting on a slope is often resorted to with notable success.

Apogon Irises require somewhat more moisture as a rule, and for some groups, notably Oncocyclus and Regelia, quite special treatment is demanded—lighter soil, extra care in drainage, abundance of lime, and no water in summer.

For immediate garden effect we strongly recommend planting in groups of 3 or 5 rhizomes of a kind. Such a number may often be supplied at an appreciable reduction from the regular

per unit price.

TERMS

Cash with order or references.

Fulfillment of all orders subject to stock on hand.

Prices are for strong, single rhizomes. The Iris borer has not yet come into our garden and every care is taken to keep stock as free as possible of rot and other troubles.

Where stock permits, twelve roots of a variety will be supplied for the price of ten.

We offer no guaranty except to do our best, but should stock sent prove untrue to name, every effort will be made to replace same satisfactorily.

Orders to value of \$5 or over sent prepaid to any part of U. S. Those of \$10 and over are privileged to a selection of extra plants to the value of 10% of the order.

Where customer includes allowance for postage with order, extra plants will be sent to cover same.

NOVELTIES

(Not over two roots of each to a customer)

Jacinto (1924). S. Light Lobelia Violet, F. Ageratum Violet; flower of fair size and attractive symmetry; 4 ft. stem, well branched; a tall pale blend of neutral tone with a pinkish cast; soft colorings, often seen on the beautiful mountain whose name it shares; present reports seem to indicate this to be reasonably hardy in the north. \$5.00.

Orizaba (1925). S. Pleroma Violet, F. Hyacinth Violet, deepening to Mulberry Purple; conspicuous yellow beard; a huge and handsome dark purple Iris of Mesopotamica habit; 4 ft.; very early; coloring remarkably clear and deep; hardiness quite untested; illustrated on cover. \$10.00.

Cacique (1925). Handsome, upstanding fulva hybrid, in Prune-Purple and Blackish-Purple, on the order of the well-known Dorothea K. Williamson, but with us taller and a more robust grower; warmer but less brilliant coloring; brilliant gold signal patch. \$5.00.

UNNAMED SEEDLINGS

Seedling 8. A large flowered, tall, early bicolor, often flowering with the intermediates. \$3.00.

Seedling 9. The latest of the trio to flower; of Neptune type. \$3.00

Seedling 10. Of value for its earliness and depth of color. \$2.50.

These seedlings have been tested for several years, but on account of the large number of Irises of this general type in commerce, hesitation is felt about naming them, despite their considerable garden value. All are Mesopotamica hybrids and of uncertain hardiness in the north. One root of each for \$7.00.

SPECIAL SET

A set of one each of the following recent introductions and novelties will be sent prepaid for \$25.00: Orizaba, Jacinto, Conquistador, San Gabriel, Cacique.

SPECIALTIES

Alcazar (Vilmorin). A grand lavender and deep bronze purple bicolor; does magnificently in California and is glorious in mass. 50c.

Black Prince (Perry). Old, but still unexcelled for richness of color; exceedingly late; should not be planted where the least drip can mar the heavy black-purple velvet of the falls; true stock. \$1.00.

- Conquistador (Mohr). A gigantic, strong-growing Iris, without a rival for sheer magnificence in the garden; huge flowers on stout stems 5 to 6 feet tall. \$5.00.
- Damozel (Morrison). A most lovely ruffled plicata. \$5.00.
- Edouard Michel (Verdier). Wonderfully ruffled, dark red-violet flower; true stock. \$1.00; 3 for \$2.50.
- Fairy (Kennicott). Inexpensive, but lovely; a dainty opal-tinted white plicata, fine both as a cut-flower and to mass in the garden. 25c; 5 for \$1.00; \$15 per 100.
- Hexagona. Handsome, tall blue Apogon from the Florida swamps, which has proven very amenable to California cultivation. 50c.
- Isoline (Vilm.). Large flowers, indescribably blended in pale bronze, pink-lilac and mauve; regal when sheltered from the bright mid-day sun. 35c each; 3 for \$1.00; \$20 per 100.
- Kestrel (Morrison). Magnificent new purple bicolor of superb form and carriage; strong grower; strongly suggests some of the Dominion race though of independent parentage. \$15.00.
- Lent A. Williamson (Williamson). In California, to bring out the rich coloring, this should be sheltered from over bright sun; splendid when well grown. \$1.00 each; 3 for \$2.50.
- Mesopotamica. An enormous blue-purple Iris of Asiatic origin, which is an impressive garden subject in California and as a breeder has yielded some of the finest hybrids in cultivation. 75c each; 3 for \$2.00.
- Nuee d'Orage (Verdier). A ruffled, smokylavender flower with an illuminated center, which can be charmingly used for many purposes; especially satisfactory in southern California. 35c each; 3 for \$1.00; \$25.00 per 100.
- Queen Caterina (Sturtevant). Pale lavender-violet; exquisite at its best, but fading somewhat in too strong sun; a big stock enables us to price strong roots of this at only \$1.00 each.

- Rose Madder (Sturt.). A most imperial combination of Argyle and velvety Dahlia Purples. \$8.00.
- San Gabriel (Dean). Enormous lavender-mauve flowers, royally carried on 4 to 5-foot stems; single clumps will bloom continuously with us for nearly 8 weeks; early flowering; strong grower; a production of which Californians may well be proud. \$5.00.
- **Soledad (Mohr).** A lovely early amber yellow of unusually clear tone. \$1.50.
- Souv. de Mme. Gaudichau (Millet). Rich, deep violet; magnificent both as specimen and clump; no Iris lover should be without it. \$1.50.
- Statellae. A small very floriferous early Iris of distinct garden value; cream yellow. 25c.
- Unguicularis Marginata. The most luxuriant grower among the exquisite winter-flowering Mediterranean Irises; lovely for long borders; September to April. 25c each; \$20.00 per 100; good clumps 50c each.
- **Unguicularis Alba.** White and gold; slightly shorter blooming season than preceding. Same price.
- Warrior (Sturt.). A rich, dusky bicolor of imposing height and habit; splendid in California. \$2.00 each; 3 for \$5.00.
- Wild Rose (Sturt.). An exquisite rosy lilac, which approaches true pink in the medium tones more closely than any other Iris we know; has proven a fine grower with us and very floriferous. \$5.00.
- Yellow Moon (Sturt.). Beautifully rounded flowers of a superb clear amber; one of the very loveliest of the new yellows. \$10.00 each; 3 for \$25.

LIMITED STOCK

With a few exceptions only two or three roots of each of the following Irises are available in 1925; orders for these and for the Perry Irises next listed will be filled in rotation as stock permits.

- Antonio (Hort). Bright purple bicolor, with gigantic flowers of curiously atttenuated outline; very fine. \$7.50.
- Aphrodite (Dykes). By no means a real pink, but a superb Iris nevertheless; form and style altogether individual. \$15.00 to \$25.00, according to size.
- Argentina (Mohr). One of the new Mohr whites which has been greatly admired and proven hardy in the east. \$15.00.
- Bertrand (Bliss). One of the finest and most distinct of the Dominion race; tall and a strong grower. \$40.00.
- Chasseur (Vilm.). Deep yellow with brown throat. \$4.00
- Delight (Sturt). Most chaste and stately of plicatas; very distinct and fine; some stock being disseminated under this name appears to be True Charm. \$10.00.
- Edith Cavell (Denis). Still our favorite in the white Irises, despite the appearance of newer rivals; huge yellow-throated flowers on tall stems; drooping falls of unusual finish and substance. \$10.00.
- Gold Imperial (Sturt.). Clear, deep yellow with bright orange beard; not available before fall of 1925. \$15.00.
- Imperator (Cayeux). Said to be a reddish Iris of Edouard Michel type, but as yet unflowered with us. \$10.00.
- Jennett Dean (Sturt.). Very large flowers of pale shimmering lavender; exquisite when well grown, but fading a little in too bright sun. \$12.00.
- Lulworth (Dykes). One of the recent English novelties; a rich dark flower of Perfection type; very floriferous. \$10.00.
- Old Ivory (Sturt.). Light yellow with cinnamon reticulation at throat; 3 ft. \$5.00.
- Peau Rouge (Cayeux.) Dark maroon. \$8.00. Primrose (Sturt.). Delightful clear yellow, lighter than Gold Imperial; good grower. \$10.00.

8

- Prince Charming (Sturt.). Another of the lovely Glen Road plicatas. \$8.00.
- Reverie (Sturt.). A fine reddish bicolor of unusually strong habit, neat form, and distinctive coloring; one of the most beautiful of the late blooming types. \$10.00.
- Susan Bliss (Bliss). Has not yet flowered with us. \$12.00.
- Theseus (Hort.) Creamy white with yellow throat; fine form and splendid substance; strong grower; one of the finest of the wonderful new white Irises and exceedingly effective as a garden clump. \$15.00.
- **Titan (Bliss).** Gigantic spreading flowers on 4-foot stems; Dominion race; very strong grower; at its best an extraordinary Iris. \$15.00.
- Wedgewood (Dykes). A lovely flower of bright clean tone, strikingly blue for an Iris; very floriferous; fine grower; greatly admired by every visitor. \$20.00.

THE PERRY IRISES

Few originators have had their introductions so widely and favorably heralded as Mr. Amos Perry, of Enfield, England. We have a nearly complete series of these, the majority of which flowered abundantly the past season and were distinctly a feature of our display. Owing to lack of the time necessary for a careful use of Ridgway during flowering time, accurate color descriptions must wait till next year, especially as many are quite difficult to describe. Meanwhile a very few plants of the following can be supplied at prices noted.

WILD TYPES OF POGONIRIS

We are especially interested in the wild forms of Iris and have a considerable collection of which the following are now available in more or less surplus. They are particularly interesting to those concerned in breeding work or botanically inclined, but most are likewise fine garden plants.

Albicans. Lovely early flowering white Iris, indispensable in California where it is often in full flower in February and usually lasts till Easter. 25c; 5 for \$1.00; \$15.00 per 100.

Amas. A huge broad-petaled germanica from Asia Minor. 25c.

Cengialtii. Small, but very floriferous lavender Iris from northern Italy; exquisite when massed. 25c.

Cretan. A collected form from Mr. Dykes; related to Kochii and Crimson King, but somewhat bluer. \$5.00.

Kharput. A good collected form of germanica from Asia Minor. 25c.

Kochii. Similar to but bluer than Crimson King. 25c.

Madonna. Supposed to be the blue-purple form of albicans, but does not behave much like it in the garden. \$1.00.

Mesopotamica. (See specialties.)

Nepalensis. ..A deep blackish-purple form of Kochii. 35c.

Pallida. Tall light lavender. 25c.

Pallida Dalmatica. Similar to preceding, but larger flowers and deeper in color. 35c.

Siwas. An early blooming, somewhat bluetoned germanica from Asia Minor. 35c.

Trojana. Unusually fine strain of imported stock. \$1.50.

Trosuperba. A splendid tall form of trojana; widely branched stems. \$1.00.

Variegata. A strong growing wild form of the true species from Sir Michael Foster's garden, originly no doubt from southeastern Europe. \$5.00.

REGULAR LIST-BEARDED IRISES

Duly allowing for personal preferences and special conditions, we have found all the varieties offered in the present list to be worth growing here.

Afterglow (Sturtevant). Lovely yellow-illuminated lavender. \$1.00 each; 3 for \$2.00.

Albicans. (See specialties).

Alcazar. (See specialties.)

Ambassadeur (Vilm.). Magnificent bronze and black-maroon bicolor. \$2.00.

DISCARDS

The following Irises have been rejected from our garden and will no longer be offered. Record of their departure seems worth while, although we are fully conscious that our grounds for criticism may not apply with equal force in other localities.

Ada. Small flower; poor color.

Aletha. Wretched form.

Cottage Maid. Same color effect obtainable from better varieties.

Dorothea. Poor form; floppy segments; indeterminate washy color.

Hiawatha. Not outstanding.

Marenco. Small flower; poor foliage.

Maritana. In no way outstanding.

Mohawk. Not outstanding.

Mr. Shaw. Wretched form and color, but our plant not surely true.

Mrs. Horace Darwin. Many far finer whites now nearly as cheap.

Purple-and-Gold. Not sufficiently distinctive; already discarded by originator.

Red Cross. Seems to us more freakish than beautiful.

Ruberissima (King George V). Not outstanding. Sympathy. Blacklisted by A. I. S.

Tecumseh. Small flower; miserable coloring.
